Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-2 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Unland et al. Fig. 1 of Unland et al discloses a method for regulating a supercharger of an internal combustion engine 100, comprising generating a manipulated variable α from a deviation between a setpoint value of an operating parameter of the internal combustion engine and an actual value of the operating parameter, the manipulated variable having at least one integral component supplied by an integral action controller 134; specifying at least one limit value for the integral component, the at least one limit value being determined from a plurality of operating parameters 109, 110 of the internal combustion engine 100; and adapting the at least one limit value by adaptively determining a first operating parameter of the plurality of operating parameters as a function of a second operating parameter n.

2. With reference to applicant's argument that Figure 2 of Unland et al does not teach the limitation recited last in applicant's claim 1, it should be noted in the last office action, applicant's attention was specifically referred to Figure 1 of Unland et al, not Figure 2. Rather than looking at characteristics maps 210 and 218 in Figure 2, applicant should

Art Unit: 3748

be looking at characteristic map 126 in Figure 1 of Unland et al. It should be noted that in Figure 1 of Unland et al, the limit value determined from operating parameter 110 is adapted as a function of operating parameter n.

Allowable Subject Matter

3. Claims 3-9 and 11-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3748

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
